THE BANKS YESTERDAY had plenty of exchange and money to overflowing, but current business, outside of cotton sales, was singuant. The New York Bulletin of Monday reported; "Holders' ideas continue somewhat variable, one portion feeling half inclined to ell'on the present rise, and a few even offering samples at what may be considered a virtual shading from current named rates, while others are confident and stiff, and seem Inclined to withdraw samples in ex-pectation of doing better. No change, nowever, has been made on quotations, and the position in a general way may he called pretty steady. Exporters still without orders, and foreign outlet offers no relief at the moment. On contracts there has been a fair amount of business done with a continued firm tone and the cost gradually creeping upward along the entire line. Aside from this there appears to be nothing positively new. A great many dealers s iil consider the upward turn as somewhat frothy and forced already to the foll extent warranted by the lufluences developed, but their opponents are numerous and rather gaining friends, if anything, with the average temper of the 'room' bullish. Liverpool comes better, and the unfavorable crop reports seem to be accepted more generally as baving seme foundstion, letters at hand to-day proving confirmatory, it is said, and some of them coming from new sections heretofore sending no complaints." Quotations at the Memphis cotton exchange were as Testerday. Daybefore.
